Stock	Uses	Price
Bone Meal	General fertilizer – high in phosphorous. Promotes strong root growth.	70p per LB
Chicken Manure	Ideal for soil enrichment and improvement.	70p per LB
Compost	Clover Multi-purpose compost 60ltr bags.	£5.70 per bag
Fish, Blood & Bone	All purpose plant food for healthier flowers, fruit and vegetables.	60p per LB
Growmore	Multi-purpose plant food with an even balance of nutrients. Just one application will last up to two months. Suitable for all crops either as a base or top dressing.	70p per LB
Lime	Lime works to increase the pH of acidic soil. This creates a healthier base for plants to grow. Used to change the soil pH, making it easier for plants to take up minerals and nutrients from the soil.	25p per LB

Settle Street Allotments

Magnesium Sulphate (Epsom Salts)	<p>Magnesium is necessary for the production of chlorophyll without which the foliage turns brown and withers. Tomatoes and houseplants are particularly susceptible to magnesium deficiency, early symptoms of which are a yellowing between the veins of older leaves.</p>	90p per LB
Plant Pots	<p>We have a selection of plant pots, various sizes.</p>	Small – medium £1.00 for 20. Large £1.00 each Extra large £3.00 each
Seed Trays and Propagator Lids	<p>We have a selection of seed trays and propagator lids.</p>	Basic Seed Tray: 50p each (3 for £1.00) Heavy Duty Seed Tray: 70p each (3 for £1.50) Propagator Lid: 90p each (3 for £2.00)
Silverpearl – Perlite	<p>Perlite is very good for rooting cuttings, seed raising, potting composts, soil conditioning and turf dressing due to its ability to absorb and hold vast amounts of air and moisture which improves aeration and drainage. Perlite speeds up rooting, reduces risk of damping off, provides an optimum balance of air and</p>	50p per Litre

	<p>water, and makes water logging almost impossible. It also minimises damage to roots and check to growth during transplanting. For seed raising, it encourages quicker germination, improved seedling growth and less check when pricking-out or potting on. In potting composts, it improves aeration, draining and insulation, and also facilitates re-wetting.</p>	
Sulphate of Iron	<p>Used to reduce the alkalinity of soils, iron helps to make available the natural elements and nutrients essential to the healthy cultivation of plants that usually thrive in acid conditions.</p> <p>All lime-hating plants such as Strawberries and Blueberries and many ericas and alpines, can benefit from regular top dressing and this Sulphate of Iron should be applied at planting or as a top dressing as required</p>	90p per LB
Super Phosphorous	<p>For healthier and more abundant fruit and vegetables. It promotes strong and healthy rooting and provides a fast acting and long lasting source of phosphorous. Phosphorous is an essential nutrient for all plants, enhancing their root development, growth, flower and fruit production.</p>	80p per LB
